

# Abdominal Binder with EasyGrip™ Strip

## Indications

Include, but not limited to:

- ◆ Cesarean Section
- ◆ Gynecology
- ◆ Bariatric
- ◆ Plastic/Cosmetic
- ◆ Hernia
- ◆ Spinal Surgery
- ◆ Laparotomy
- ◆ Orthostatic Hypotension

Studies<sup>1,2</sup> show that a postoperative regimen that includes Abdominal Binders promotes improved pulmonary function, allows for early ambulation, and alleviates pain. Abdominal Binders also contribute to fewer risks of sedentary complications such as atelectasis, pneumonia, and DVT all while offering patient support and a sense of security with mobility while decreasing the risk of wound dehiscence. Preventing post-op complications reduces the length of hospitalization stay and overall hospital cost.

The Dale Abdominal Binders include an exclusive EasyGrip Strip that holds up to four 100cc drainage bulbs allowing them to be easily monitored, emptied, and removed without the inconvenience of safety pins.

## Key Features

- ◆ Made of exclusive stretch material with hook that can be engaged at any point along the binder.
- ◆ Evenly distributes compression.
- ◆ Innovative paneled construction helps prevent riding, roping, and folding over.
- ◆ Facilitates deep breathing and ambulation.
- ◆ Can be cut to allow for tubing and will not fray or unravel.
- ◆ EasyGrip Strip holds drainage bulbs in place.
- ◆ Not made with natural rubber latex.

Product #	Description	Quantity
525	6" Wide, Stretches to fit 72cm-127cm (28"-50") *can also be used as a rib belt	1/each
410	9" Wide, Stretches to fit 76cm-114cm (30"-45")	1/each
411	9" Wide, Stretches to fit 117cm-157cm (46"-62")	1/each
418	9" Wide, Stretches to fit 152cm-191cm (60"-75")	1/each
810	12" Wide, Stretches to fit 76cm-114cm (30"-45")	1/each
811	12" Wide, Stretches to fit 117cm-157cm (46"-62")	1/each
818	12" Wide, Stretches to fit 152cm-191cm (60"-75")	1/each
820	12" Wide, Stretches to fit 183cm-239cm (72"-94")	1/each
920	15" Wide, Stretches to fit 183cm-239cm (72"-94")	1/each
