

PRESS RELEASE- FOR IMMEDIATE RELEASE

**Dale Medical Products, Inc. announces the
UltraGrip™ Single Leg Naso-Gastric Tube Holder**

July 15, 2024; Franklin, MA – Dale Medical Products, Inc. (“Dale”), an industry leader in disposable medical products, proudly announces the launch of its latest patent pending innovation, UltraGrip™. This revolutionary NasoGastric (“NG”) Tube Holder sets a new standard in NG Tube Securement with its cutting-edge features and unparalleled performance.

UltraGrip™ is the culmination of marketing research and engineering design. It represents Dale’s commitment to delivering innovative patient solutions with clinician inspired enhancements that meet the evolving needs of patients and clinicians.

Key features of the UltraGrip™ 163 include: Universal Design which allows it to secure all types/sizes of NG tubes, breathable fabric with a patient friendly adhesive and non-adherent tipped ends, easy to use and understand single tab design, non-adherent, cushioned foam bridge pad which provides superior comfort at the tip of the nose to help prevent medical device related pressure injury (MDRPIs).

“We are thrilled to introduce the UltraGrip™ Single Leg NG Tube holder to the healthcare market. This new product is a great example of a clinical solution that satisfies the needs of patients and their caregivers,” said Bob Simpson, President & CEO.

The 163 UltraGrip™ will become available on or about July 15, 2024 through distributors worldwide. For more information about the 163 UltraGrip™, please visit the Dale Medical website at www.dalemedical.com.

Established in 1961, Dale is recognized as a trusted manufacturer of specialty medical devices that provide high quality, reliable, cost-effective solutions to enhance patient care. As an employee-owned business, we are committed to strengthening our position as a financially successful market leader through innovation and continuous improvement.
